

NGS Sample Prep Seminar

ERIBA

Roche

***Roche NGS Sample Prep Solutions:
Unlock the Potential of Every Sample***

**ERIBA Seminar Room
January 24th, 14:15-16:00**

Maryke Appel

Senior International Product Manager **Roche Sequencing Solutions**

During this seminar, we will introduce the Roche Sample Prep portfolio, highlighting currently available solutions for sample collection, sample enrichment, nucleic acid extraction, sample quantification and QC, DNA & RNA library preparation, target enrichment and library quantification.

In addition, we will discuss the challenges in DNA & RNA Library Prep, highlight complete workflow solutions, and share data for a number of applications, including whole-genome sequencing, targeted sequencing and RNA-seq; from both high-quality and challenging samples.
